

LETTER FROM THE EDITOR

Once again it is a real pleasure for the Editorial Committee of HOW to reach teachers of English in Colombia and some other parts of the world through this publication. Needless to say, HOW is the bond of ASOCOPI that keeps teachers of our country united concerning the goal of improving the standard of the teaching of English in Colombia.

As usual we hope that the articles included in this issue will enrich the theoretical knowledge of TESOL of English teachers while providing them with practical insights on how to deal with the language components and skills. To accomplish this goal, this

edition includes articles that tackle such areas as Teaching English in Primary School, Children's Learning Styles, Cooperative Learning, Teaching Writing through Dialogue Journals, Meaningful Learning, The Importance of Cultural Studies in the Teaching of English, Developing Values-Strategies and Skills in Future Teachers, The Role of Games in the Classroom and Communicative Language Teaching.

The Committee hopes that English teachers will enjoy the ASOCOPI conference and the materials of HOW while staying in the marvellous city of Medellín.
