Guidelines for Contributors

HOW is an annual publication led by ASOCOPI, the Colombian Association of Teachers of English. It is a journal by and for teachers of English who wish to share outcomes of educational and research experiences intended to add understanding to English language teaching practices. HOW is registered with Infotrac GALE Cengage Learning—Informe Académico and EBSCO. The journal is also indexed in Publindex-Colciencias, classified in category C.

Our purpose

Our Journal is mainly interested in maintaining communication among English teachers in Colombia and abroad by offering opportunities for the dissemination of knowledge resulting from educational and research practices concerning English language teaching issues.

Sections of the Journal

You can submit your manuscript to one of the sections of our journal:

Research Reports: In-progress and final reports of studies carried out by teacher-researchers or student-teachers studying in BA programmes. The abstract of the paper should explicitly indicate this and the structure of the article should include the main components of a research report: introduction, method, results, conclusions, references, among others.

Reports on Pedagogical Experiences: They tell the reader about teaching practices that have been systematized by the authors as a result of an analytical process. Reports on pedagogical experiences are expected to include a solid justification, the description of the processes followed in a given educational setting, samples of such processes, results of the experiences and conclusions. The authors are also expected to support their manuscript with theoretical and/or research studies and to present analytical perspectives.

Reflections and Revision of Themes: Specific subjects or topics can be examined in depth in two types of articles: reflections and revisions of themes. An article of reflection presents the results of a research project from the author’s analytical, interpretative, or critical perspective. It is about a specific topic and draws on the close examination of a variety of sources and clearly shows the author’s informed points of view. An article of revision is the result of a research project in which one analyses, systematizes, and integrates the outcomes of published or non-published research projects about a specific topic. They gather the
advances and developmental tendencies in the field and support them with a rich and varied selection of references.

**Submitting an article**

To be considered for publication, you should send your manuscript in a Word document to our e-mail account. Keeping in mind the sections of our journal, please indicate in the letter to the editor the section your contribution is written for.

Manuscripts should contain an abstract of no more than 110 words and a list of key words in alphabetical order (no more than five). The abstract and the key words should be both in Spanish and English.

Following the American Psychological Association (APA) style, Sixth Edition (see samples of references), authors must include citations inside the text as well the complete bibliographic information for each citation in the list of references.

One of the requirements for the publication of articles about teaching or research experiences in which subjects have participated is to have a consent form signed by them authorising the use of the information in the publication. Send along the consent form format used, together with your manuscript.

Please send the article and the consent form (if applicable) together with a letter to the editor specifying the following: Title of the article, Author(s) name(s), Institution, Address, a short biographical statement of no more than 40 words per author, and the date or period of time when the document was written. Additionally, you should include a statement indicating that your article has not been submitted to another publication and that it has not been published elsewhere.

It should be noted that plagiarism is a crime under Colombian law. HOW will reject papers which evidence plagiarism, and its decision will be final. Manuscripts submitted by authors whose work has been rejected due to plagiarism will not be considered for evaluation purposes in the future.
